

## WALK THE CHAIR

Cynthia Schwertsik

### A casual meeting in the street

*This is a performative intervention asking people to join me in the street, just outside their living spaces or along their regular walks. The performance is a surprise action of walking from one chair to the next, playfully making my way along the path with two chairs. I gladly stop and pause at any time with a spare chair on offer. Now a seated conversation is possible, exchanging stories or just sharing some rest time on my journey.*

Walk the Chair is part of an initiative of the Square Eyes 2018 program to activate public spaces by the City of Marion.
